Bewitched - A journey of discovery

Your journey of discovery begins 60 kilometres south of Queensland's capital city of Brisbane, on a volcanic plateau set within Australia's Gold Coast hinterland and soon you will arrive at Witches Falls Cottages. Meander along the road to Tamborine Mountain, passing spectacular valley views, lush sun dappled gardens and tall eucalypt forests. As you approach the top, your surroundings are cooler and greener so you open the car window to breathe in the crisp mountain air.

Witches Falls Cottages is an idyllic retreat with private, self contained cottages tucked away along rainforest pathways in one of Tamborine Mountain's most secluded and romantic locations.

Your hosts Daniela and David are winners of the 2010 Queensland Tourism 'Best Hosted Accommodation' award and to them success is not a place at which one arrives but rather the spirit with which one undertakes and continues a journey.

Swiss born Daniela tends to the cottages' herb garden and her beloved chickens if she is not indulging in her love of photography. You can see parts of her work on display in a little gallery. David a former urbanite and pioneer in constructing foundations for oil platforms in the North Sea enjoys creating silver jewellery and gift items but his specialty is the country style bread baked after a secret family recipe which completes the sumptuous breakfast hampers.

Next door to your private cottage you find Witches Falls National Park, the oldest National Park in Queensland, which invites you to explore the Rainforest and local fauna and flora. Walk to local wineries, antique shops or the picturesque village. Stroll through Gallery Walk with its Gift and Craft Stores, relax in one of the coffee shops or enjoy the abundance and varieties of cuisines on offer in one of the many Restaurants on Tamborine Mountain.

Life presents opportunities to undertake many journeys – some last a few minutes others a lifetime - others still, as with Daniela and David, begin with a simple drive up a meandering country road and end by changing two people's life's journey completely.
