

## **TV Instructions:**

### **TV with separate DVD player in lounge area:**

You can operate both the TV and the DVD with just the DVD remote control.

**To operate the TV** – press “power on” on the top right Corner (TV power).  
The green light on the TV flashes for a few seconds before the picture comes on.  
To change channels use “channel up/down” immediately below the power switch.  
To change volume use “volume up/down” immediately below channel switch.

**To watch a DVD** – press “power” on top left corner.  
Press the AV button twice until the DVD logo appears.  
Insert the DVD.  
Press play.

To go back to TV press the AV button about 6 times to scroll through until the TV program comes back on.

### **TV with built in DVD player in bedroom area (Premium Cottages):**

#### **To watch the TV the setting needs to be on DTV**

You can change the setting by pressing the input button on the top of the remote and scrolling up and down as required

#### **To watch a DVD the setting needs to be on DVD**

Insert the disc at the back of the TV (access from the right, label side of DVD towards the wall)

To eject the DVD use the eject button on the TV screen (right hand bottom corner), alternatively you may need to use the eject symbol button ▲ on the remote control.  
Make sure the DVD setting is still active.

### **DVDs available:**

We have a limited selection of complimentary DVDs available for you at reception. Please feel free to browse through and select a few. They don't need to be registered, just bring them back the next day or after you've watched the movie.
